INSTRUCTIONS FOR USE

This product is designed for climbing and some common misuses for the climbing equipment use. Other possible misuses exist. Risk associated with climbing. If you lack experience, use this equipment under proper supervision.

Camalot C4 and Camalot Ultralight are frictional anchors that are one part of the safety system which protects the climber from a fall if tensioned.

Operational Range: The range of widths within which the manufacturer ensures the holding force.

(See accompanying illustrations)

CARE AND MAINTENANCE

Keep your equipment clean and contact with corrosive materials such as battery acid, battery fumes, solvents, chlorine bleach, antifreeze, isopropyl alcohol or gasoline. After contact with saltwater or salt air, always rinse and dry texture products, and rinse dry and lubricate metal products.

(See accompanying illustrations)

LIFESPAN, INSPECTION AND RETIREMENT

Climbing gear does not last forever. Inspect your gear before and after each use, and retire it when it falls inspection or when it reaches its maximum lifespan, even if unused and stored.

See the following inspection illustrations. Retire immediately if any of the following conditions are found:

- Damage and extreme conditions may shorten your equipment's useful life, and could conceivably require replacing the gear during its first use.

- Inspect your gear immediately after you have used it, and again after use.

- If you have any doubts about the dependency of your gear, or after a serious fall, gear dropped from height, saltwater wear, corrosion, and prolonged exposure to sunlight, salt water, harsh environments or extreme temperatures.

- If you have any doubts about the dependency of your gear, or after a serious fall, gear dropped from height, saltwater wear, corrosion, and prolonged exposure to sunlight, salt water, harsh environments or extreme temperatures.

- The lifespan of gear is measured from the date of manufacture, not the date of sale. Refer to the Markings section of these instructions in order to determine the date of manufacture.

- Webbing must be replaced by sending your Camalot to the Black Diamond Warranty Center. Check the Black Diamond website for details (www.blackdiamondequipment.com).

STORAGE AND TRANSPORT

(See accompanying illustrations)

ADOPTING CAMALOTS

We strongly discourage secondhand use. In order to trust your gear you need to know its history.

CHOOSING OTHER COMPONENTS

Choose ropes that meet EN 892 and carabiners that meet EN 12275, and choose other CE/UKCA certified mountaineering equipment that is compatible with this product.
